- Very thin and lightweight, great optical quality, and very durable. Up to 50% thinner than basic plastic.
- Bifocal lenses will have a line and focus distant images in the top half of the glasses and focus near images in the bottom half of the glasses.
- Polarized lenses are top-of-the line sunglasses that remove glare and light from reflected surfaces. Polarization is an excellent option for driving and outdoor use.
- Tinted lenses provide relief from light sensitivity and come in a variety of colors and darkness levels

Normal Retail Fee without your vision plan \$659.00

Out of Pocket Fees After Your Vision Plan Contribution	\$454.80
